2) You can transfer payments to our addresses from anywhere including exchanges like Coinbase.

3) When you buy P2PS tokens with ETH from an ERC20 compatible wallet address that starts with 0x and is NOT from an exchange, then you do not have to do anything. Your P2PS Tokens will be sent to your wallet. If you do not receive your tokens within 24 hours please send email to token@p2psf.org and let us know.

4) However, if you bought with other crypto such as BTC, BCH or LTC, please email your ERC20 compatible wallet address to token@p2psf.org with your transaction (TX) hash.

5) After acquiring the P2PS tokens, you can deposit them into any ERC20 standard token wallet such as MyEtherWallet, Meta Mask, Mist, Parity, Imtoken, etc.

6) You are buying @250 P2PS for 1 ETH or equivalent in other cryptocurrencies (plus bonus), the token price displayed on the landing page.

7) There may be difference due to volatility and resultant mismatch in BTC-ETH conversion price. Therefore, for any BTC/ETH/BCH/LTC you send us, you will receive appropriate # of P2PS tokens according to the exchange prices mentioned on landing page. For example when you buy 1000 P2PS tokens you will pay 4ETH or its equivalent in other cryptocurrencies. Your transactions shall be processed accordingly and you shall receive appropriate P2PS (plus bonus) for your contributions.
